The Fan-tasy Tileset Free Trial Guide

Welcome!

This is a small free trial of my asset pack The Fan-tasy Tileset. This version contains only a small portion of the full asset pack content and is meant to give you an idea of the possibilities offered by the complete version.

Contents

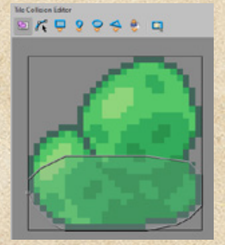
This free trial is the same regardless of where you downloaded it from (whether it's the main page of 'The Fan-tasy Tileset' or one of its expansions) and contains:

- 4 Stone houses.
- 1 well.
- 18 Props to fill your towns.
- 5 Rocks of different sizes.
- 4 Trees.
- 7 Bushes.
- 1 Animated door
- 3 Animated flower patches with 2 different color palettes.
- 1 Animated river tileset.
- 1 Ground tileset with grass patches.
- 1 Road tileset.
- 1 Detailed rock slopes.

Colliders

Almost every tileset and object tile already includes collisions in its .tsx file. This can help novices focus on other aspects of game development and may also be useful to veterans who want to save time on this tedious task.

Collisions are present in both atlases and objects, so feel free to choose whichever works best with your style!



Map Example

Here you can see an example of the possibilities that this free trial offers! This map has been built using only the assets that you can find here for free. It's just a small part of what the complete pack will offer, but it still provides a good idea of how you can use these functionalities. The tiled files you can find here are simplified versions of those in the actual asset packs. You can check them out by going to the 'Tiled/Tilemaps' folder, where you'll find both a .png image and a Tiled file to help you get started with map creation."
